SUMMARY

BCA graduate specializing in full-stack web development using the MERN stack (**MongoDB, Express.js, React.js, Node.js**) alongside **SQL**. Experienced in building end-to-end applications, developing RESTful APIs, integrating real-time WebSocket communication (Socket.io), and securing backend systems (JWT, RBAC). Seeking an entry-level **MERN Stack Developer / Junior Full-Stack Developer** role to build responsive user interfaces and reliable web solutions.

TECHNICAL SKILLS

Programming Languages: Python (Pandas, NumPy), JavaScript (ES6+), SQL

Web Technologies: React.js, Node.js, Express.js, REST APIs, HTML5, CSS3

Databases: MongoDB / Mongoose, MySQL, SQLite

Core Competencies & Tools: Git/GitHub, VS Code, Thunder Client, AI-Assisted Coding, Basic Networking, Linux, Windows, Software Troubleshooting

ACADEMIC & TECHNICAL PROJECTS

FreelanceHub – MERN-Stack Freelancing Marketplace | *React.js, Node.js, Express.js, MongoDB, Socket.io*

- Built an end-to-end client/freelancer platform featuring project management, proposal submissions, reviews, and secure real-time messaging.
- Implemented JWT authentication (HTTP-only cookies), role-based access control (RBAC), and protected REST API & WebSocket endpoints.
- Secured backend architecture using Helmet, CORS policies, rate limiting, and strict input validation.

Job Tracker | *React.js, Node.js, Express.js, MongoDB*

- Developed a responsive full-stack application using the MERN stack to track and manage job application statuses.
- Integrated custom search and filtering functionalities for efficient data retrieval and user workflow management.

Real-Time Chat Application | *React.js, MongoDB Node.js, Socket.io, Express.js, Clerk*

- Built a real-time messaging application using the MERN stack and Socket.IO, integrating Clerk for secure user authentication.
- Implemented event-based client-server communication, CORS configuration, and RESTful APIs for instant message delivery.

Inventory & Management System | *Python, SQLite*

- Developed a desktop application using Python and SQLite to manage product and stock information for small businesses.
- Created a clean user interface and custom database queries to perform seamless CRUD operations on local data.

EDUCATION

Bachelor of Computer Applications (BCA) — CGPA: 7.55
Milagres College, Kallianpur, Udupi (2026)

Commerce Stream — Percentage: 64%
St. Mary's Syrian (SMS) Pre-University, Brahmavar, Udupi (2023)

CERTIFICATIONS & LANGUAGES

Certifications: Python for Data Science & Machine Learning

Languages Spoken: English, Kannada, Hindi, Urdu
